

Apollo Hospitals Chain of Indian private hospitals (APOLLOHOSP)

Revenue CAGR 12.7%	PAT CAGR 23.2%	ROE 13.5%
ROCE 17.2%	Debt/Equity 0.77	FCF Conversion 93.8%

Capital Allocation: Self-Funded Reinvestor

Pros

- Profits growing faster than revenue demonstrate improving operating leverage and scale benefits.
- Strong free cash flow generation over 5 years signals healthy business fundamentals.
- Earnings per share growing above 15% CAGR indicates strong earnings quality and compounding.

Cons

- Five-year revenue growth of approximately 12.7% remains an area to monitor relative to higher-growth companies.
