10-Year Revenue and Net Profit

ROE Trend

Capital Allocation: Self-Funded Reinvestor

Pros

- Return on equity improving for 3 consecutive years shows strengthening business quality.
- Revenue growing at above 15% CAGR over 5 years reflects strong business momentum.

Cons

- Net debt of approximately 28.52 times EBITDA represents high leverage and limits financial flexibility.
- Return on capital employed below 10% suggests the business is not generating sufficient returns on invested capital.
