

Reliance Industries Ltd (RELIANCE)

Revenue CAGR 9.5%	PAT CAGR 14.9%	ROE 10.0%
ROCE 9.6%	Debt/Equity 0.58	FCF Conversion -7.7%

Capital Allocation: Deleverager

Pros

- Profits growing faster than revenue demonstrate improving operating leverage and scale benefits.
- Growing asset base with declining debt reflects growth supported by internal accruals.

Cons

- Return on capital employed below 10% suggests the business is not generating sufficient returns on invested capital.
